**Tools & Practices:** Claude Code, Claude Cowork, Splunk, Gitlab, Requestly, Git, Webpack, npm, Agile/Scrum, Jira, NVDA, Voiceover

## PROFESSIONAL EXPERIENCE

### Engineer 2 - Ticketmaster

July 2023 – Present

Gurugram, India

- Developed and optimized ticket management and Account Manager workflows for major sports leagues (NBA, NFL, MLB, etc.) and global live events including tours for Taylor Swift, Coldplay, The Weeknd, and more, supporting 500M+ annual tickets across 30+ countries.
- Built and enhanced fan-facing flows including transfer, assign, resale, exchange, upgrade, donate, and add-to-wallet, improving post-purchase completion rates by ~21.5% while supporting concurrent users, with bulk actions over tickets and events.
- Scaled high-performance frontend experiences across My Events, Event Details, and My Profile, Site Settings pages, reducing load times by ~38% through performance optimization techniques, efficient rendering strategies, and best React practices.
- Built internal tools to easily scrape through logs, chrome extension for the Account Manager project to ease daily operations at workplace, utilized by QA team to effectively scrape through network logs.
- Selected as Ticketmaster Global Ambassador and helped organize internal events, promoting culture and values within the organization to create a cohesive workplace environment.

### Software Developer - Centre for Computational Technologies (CCTech)

March 2022 - June 2023

Pune, India

- Developed interactive scientific web applications (AHC and AVC) in a fast-paced startup environment using React.js and visualization tools, contributing to AHC's initial launch and onboarding of its first clients.
- Built and maintained customer-facing platforms including the main website and customer portal, managing product catalogues, pricing, payments, blogs, newsletters, webinars, and customer workflows.

### Software Developer - Cognizant

October 2021 - March 2022

Gurugram, India

- Worked on event management workflows for large-scale events and entertainment client at Cognizant, developing interactive and responsive UI/UX experiences to streamline fan-facing ticketing journeys and post-purchase flows.

## EDUCATION

### B. Tech - Maharaja Agrasen Institute of Technology

2017 - 2021

New Delhi, India | CGPA: 8.24 / 10
